

# TO HONOR BETTY BENSON

We dedicate our presence here this day,  
June 17, 2008, to Betty Benson.

Betty has been part of numerous efforts for peace with justice and she has been part of this weekly vigil for peace since we began on September 18, 2001.

Betty has been part of many other efforts to give a face and a voice to those rejected by society. Most especially, she has been a friend and supporter of many on death row, especially those who have been falsely accused. Betty is a member of the Wellington Avenue United Church of Christ and has shown her faith most vividly all these years.

Through the years we have been holding our peace vigil here at the Chicago Federal building, neither snow nor cold nor rain stopped Betty from being present. In the last year, however, Betty has chosen not to come to these vigils because of her declining energy. (She's in her 90s now.) But her spirit of courage, strength, gentleness and faithfulness continues to be present here with us at the Federal building and at many other places in the ongoing struggle to create a better world.

Betty, thank you for who you and all you have done and continue to do.

You friends at the Vigil

*Betty's sign reads: Let us not become the evil that we deplore.*
