

WISDOM FOR THE EARTH COMMUNITY

"In every deliberation we must consider the impact on the seventh generation." - Attributed to the Great Law of the Iroquois people

"What you call resources, we call our relatives." - Chief Oren Lyons, Faithkeeper and Chief of the Turtle Clan of the Onondaga Nation of the Six Nations of the Iroquois Confederacy. In his commencement address to the graduating class at Berkeley University in the US.

"Sacred is everything, each being, each energy of the universe. Sacred means the life of the universe and its evolution. From this perspective we can conclude that everything is sacred, and there is nothing that is not sacred – this is not a word-play. Sacred must become a concept larger than it was hitherto. Sacred is now not limited to space and time."
- Brazilian theologian Ivone Gebara

"What will be the impact of our decisions here today on those who are poor and most vulnerable and the earth herself." - 8th Day Center for Justice, adapted from Bishop Ken Utener charge to his diocese

[Create the wisdom of your institution, class, etc.]
